

Caswell Holiday Chalets and Gower Coast Ltd. Access Statement

The owners and staff at our chalets and other accommodation will always be ready to advise on the suitability on any of the properties for a potential visitor.

Although we group our chalets into four types for booking purposes, there are often differences in internal layout and actual site position within each type.

Access to the site is via either one of two entrances off the Mumbles to Caswell Road.

Most chalets have parking within a few metres of the front door.

The site is generally fairly flat apart from a group of chalets at the rear of the site having access from quite a steep hillside road.

Most chalets have at least one step and those on the hillside having at least ten. However a couple have only a small rise and have wheelchair type thresholds suitable for a narrow type chair.

Internally some chalets are more spacious due to the furniture arrangement. Similarly, whilst some have a narrow galley type kitchen, others are more open with easier access. Some chalets have shower cubicles whilst most have baths.

Summercliffe Park is situated 300 metres up a fairly steep main road from Caswell Bay. Parking is available next to the beach where there is a ramp down to the beach. There are also 3 shops/cafes on the flat ground here.

We recommend that potential visitors ring or e-mail their requirements and we will be happy to advise on suitability. We are constantly upgrading the chalets and where possible we will be incorporating future features to aid access.
