

Greenways of Gower Access Statement

Greenways Leisure Park is a static caravan and camping park situated on the South Gower coast, catering to the requirements of families & couples on leisure holidays.

All the static caravans are privately owned with access via tarmacadam roads.

In the camping area there are 4 fields and we have a large showerblock to cater for the campers. Current facilities are showers, WCs, wash basins and a sink wash room for dishes and such. We have a chemical toilet facility and hope to upgrade the block with additional facilities and a wet room in the not too distant future. All field access is simple. Fields are fairly level for tenting purposes although do have an overall gradient, more so on the lower fields with the top fields being flatter overall.

Other on-site facilities: A lounge bar with disabled toilet facility and access ramps (fairly steep) & rails. A Small outdoor pool accessible by steps.

Pre-Arrival

- We are currently looking to create our first company website and hope to have this up and running in the coming months (by 2010) which will give people easy access to contact our business online. The website should be easy on the eye and easy to navigate.
- We can be contacted at head office on 01792 386676 or the park office (not manned at all times during normal opening hours) 01792 390220.
- The only public transport to and from the Oxwich area is by bus and although taxi services can be called in from Swansea and Mumbles they could be expected to be expensive due to the travelling distance involved.
- The nearest town area is Swansea at around 13-15 miles by car.

Arrival & Car Parking Facilities

- On arrival please park in the spacious tarmac car park before the barrier and head to the park office. If there is nobody available there, the managers phone number is on the door or you may try the managers accommodation at Mayflower House, the big house on the right side of the car park as you enter the site.
- The manager will book you in and give you an access card for the barrier which you can then use to enter the park. Following the road after the barrier around the left of the building ahead you then follow the roadway around to the left, past the boat compound and into the camping fields above the children's play area. Once within the camping field area the roadway turns to hard track (mainly gravel type track).
- Well behaved dogs area welcome on site, but should be exercised off the park and not allowed to roam or foul the park. Please be cautious of children playing on the park and their health and safety if you bring a dog to the park.

Laundry

- Laundry room has stepped access due to its location.

Shop

- There is no on-site shop, however at Oxwich cross down the road there is a local store.

Clubs & Entertainment

- We have a friendly lounge bar with mild family entertainment in the busier periods, such as karaoke & disco nights.
- The entrance to the lounge bar can easily accommodate wheelchairs and as mentioned there is an access ramp, this is a little steep due to the location however and has been as such for many years. We have a disabled toilet facility within the premises with an alarm cord and plenty of room to manoeuvre.
- Seating is fixed and cannot unfortunately be reserved .

Additional Information

Google Earth reference: 51 33'18.72N, 4 10'18.23W

Future Plans

- We are looking to update our camping showerblock in the near future and to include in the new facilities a new wet-room. We are also now updating our old boilers to brand new high-tech instant boilers which should provide an even better supply of hot running water to the block.
- We would also like to look into installing electric hook-up points for campers in the future.

We welcome your feedback to help us continually improve if you have any comments please phone 01792 386676.
