

## **Swansea Marriott Hotel Access Statement**

We have reviewed and audited all of our hotels in the UK against pre-defined set of criteria. We have identified where our properties need to be upgraded and modified to meet the needs of our disabled guests.

Our car parks and entrances have been modified to afford easier access for all of our guests, irrespective of their disability.

The entrance doors, reception, corridors and public areas generally should allow all of our guests the opportunity to enjoy all of the products and services we have to offer.

The lifts have been upgraded for your benefit and our meeting and function rooms have special facilities designed for the hard of hearing.

We have different types of bedrooms to suit almost all of the needs of the disabled.

Our public toilet design, again, ensures privacy and universal access.

We have also endeavoured to ensure our leisure facility is, again, accessible to all of our guests.
