Sculpture on the Coast Project 2018/19

Sculpture on the Coast is a special way-marking sculpture trail along the Gower Coastal Path, created by the Welsh Art Group Sculpture by the Sea UK. The project showcases contemporary Welsh arts in an adventurous, inspiring way and gives a distinctive cultural visual arts experience for all as well as encouraging active lifestyles. Five site specific sculptures have been created especially for the trail between Mumbles and Rhossili by the artists using concepts inspired by the 2018 theme Year of The Sea. There are also interesting and educational aspects about Gower, the UK's first designated Area of Outstanding Natural Beauty, which can be unravelled by following the sculpture trail and revealing the secrets behind the artworks. This inspiring activity is an opportunity for everyone to pursue a healthy and active lifestyle as they enjoy beautiful scenery and engage with culture and history along the trail. The sculpture trail links with our annual Beach Sculpture Festival which is run every summer on Gower and Swansea beaches.
